Work for the future Archeologist

(From the San Francisco Chronicle,) Some day, when the archeologist of the 3,000th century is excavating America, he will come upon traces of a kind of people he will not understand. He will write volumes upon the subject of the strange race who sometime in the dir. yast, looking from that time, lived in holes in the ground. He will find pans and cooking utensils and picks and shovels down anywhere from three to \$,000 feet under the earth, and he will Quite a crowd gathered this morn- prove from them that the inhabitants ing at the foot of the stairway leading of this great continent to-day had heard by the loudness of its quarreling ever trifles. But there are millions of bales in the ground in Nevada which were interrupted frequently by a bic- never be able to find a trace of metal cough. One hard citizen in the crowd of any kind in them. The future archeologist is going to have lots of fun. He'll try and decipher old notices of claims, and then he'll publish men had such numerous families that they had to locate 1,500 feet for burial plots for one man and his progeny. He'll pick up on the 3,000 foot levels a piece of newspaper that has covered some miner's lunch, and be will prove from that that the armst of the earth
